TWENTY JAP WARSHIPS AND 82 OTHER CRAFT KNOCKED OUT IN DAY

By LEONARD MILLIMAN
Associated Press War Editor,
Tokyo pleaded for leniency today under the merciless poundings
of allied naval guns and planes
which are rapidly knocking out Japan's air, sea and coastal defenses. Twenty Japanese warships and 82 other surface craft were knocked out in a single day's air raids by combined U. S.-British carrier forces, presumably still roaming Japanese waters.

On distant fronts strong allied scouting parties were reported feeling their way toward Singapore in an amphibious operation while Chinese troops overran the seventh former U. S. air base in China to be retaken in recent China to be retaken in recent months.

Incessant aerial pounding will reduce Japan to "a nation without cities—a nomadic people." Lt. Gen. Doolittle promised from his new Superfort headquarters on Okinawa. His confidence, echoing comments of other ranking American in see any gray commenders in air, sea and army commanders in the Pacific, was expressed shortly after B-29 headquarters on Guam announced 142 square miles of 39 Japanese industrial cities have been reduced to rubble and ashes.

not receive the entire \$20 a month. Under the new arrangement. Donnell said, the state would pay an average of \$2.75 to each of the 170.000 old persons on the present rolls, and the figure would be matched by federal funds.

Limits Total

"The constitution now limits the total that may be paid to destitute children in one year to \$1,500,000, and it limits payments to needy blind to \$15 a month," Donnell said.

"Last year, \$3,000.000 was paid out for these two purposes. Should there be no increase in payments there be no increase in payments for these two causes, there would these two causes, there would be left \$32,000,000 a month for old people, since the constitutional provision limits the total amount to \$35,000,000 paid destitute children, needy blind, and for old age dren, needy blind, and for old ago pensions," Donnell said.

If the ceiling figure of \$35,000,000 remains the same, he said, it would still be an increase of \$5,600,000 over the present constitutional limit of \$2,200,000 a monthor an average of \$2.75 a month based on the 170,000 pensioners now on the rolls.

destroyed everything destructible in all of western Russia and their own machinery is now going to replace what they ruined. But even so, it has been a tardy undertaking. The civilized world would presumably have been better off if this had been done immediately after the first world war.

Any such discussion tends to bring the whole problem of the Allies' post-bellum treatment of Germany into religious fields and is therefore not to be unduly emphasized. But at last from the present vantage point of history it would seem, to the average Briton and American, one of the most just war judgments in modern history. Strict application of it now may save the world many disastro is wars hereafter, especially if it is done to the Japs, too. The great error before was to let off easily a nation which had not paid for its crimes.

As the wars end and those farmers who have not been lost or incapacitated return home, in millions of cases they find buildings destroyed, machinery gone, and face a long, baffling wait for replacements. All of us are familiar with the picture which is supposed to portray John's baptism of the Christ. John is represented as standing in the Jordan River, holding a shell in his hand and pouring water over the Master's head. By this picture many are deceived into thinking that that's how the affair was accomplished in the very face of the fact that Scripture teaches to the contrary.

When the Bible uses the word "baptize," it employs a Greek word with a plain definite action. Thayer and every other standard Greek lexicographer define the word to mean "immerse, dip" and they never define it to mean sprinkle or pour.

n'ean sprinkle or pour.

In the English testament the word "baptize" has been transiterated from the Greek and not translated. and now it depends upon us to translate it into its English equivalent. As we do this, we must depend upon the venerable Greek scholars of the world who have spent their lives studying Koine Greek in which the New Testlament was written. Through tament was written. Through the fruits of their scholar-ship we are able to translate the Greek testament into modein-day speech and under-stand what the Lord requires of us.

AUSTIN, July 26-(Spl.)-Rhe imatic heart disease is now the first cause of death among children aged 10 to 14, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox. and whooping cough has yet been developed for its prevention or control. We do know, however some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the diease may be prevented. Exposure to frequent chilling, damp or overcrowded living quaters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.

Dr. Geo. W. Cox, state health officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the inits of the knees, ankles, alfirst cause of death among child-

Martino reported this week when he came back to New York for a few days.

He has three sisters, six neph-ews and two brothers-in-law, one

spread it to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at cnce in such a situation, for these aymptoms may be the beginning of rheumatic fever.

According to Dr. Cox the best safeguards against this disease are to have each child examined at least once a year by a physician, to have the right kinds of food and plenty of rest. When the disease is suspected of being present, a doctor should be conulted at once, and if he prescribes complete bed rest, his advice should be implicity followed.

home. He was born in Liberty, Decalb County. Tenn., Feb. 13, 1856. De-parted this life June 11, 1945. He leaves behind seven children, 30 grandchildren and 15 great-grand-children to mourn his loss. But our loss is heaven's gain.

our loss is heaven's gain.

Moving to Texas in 1901, he lived and reased his family near Black Hills, Navarro county. He was a faithful memoer of the Black Hills Baptist church since 1908. Those who confess Christ as their Saviour and live the godly life here, will have a reward in the world to come. He lived that godly life while here on earth. His gaily talk was about Jesus and His mighty power, and what a happy time it would be when he would meet his Saviour and those waiting for him. vaiting for him.

He never tired or complained. Always had a good word and a smile for everyone. When the neighbors called to see him, he would give them consoling words, encouraging them on through life. Yes, we miss him so much as it

was almost constantly we were doing something for him and he would always say, thank you,

He was bedfast for one year and three months. But it was a pleasure to sit and listen to him talk. He would talk and sing to the grandchildren, which they enoyed very much.

We must not weep for those we love, but just live the godly life here so we can meet him who has gone to that home Jesus has pre-pared for us, "a home not made with hands."

We cannot think of him as being

AMERICAN BOMBERS TO LEVEL CITIES OF JAPAN COMPLETELY

OKINAWA, July 26,--(A)--American bombers will level Japanese cities and transform the country into a nation of nomads. Lieutenant General Doolittle predicted to-

day.

The stocky little general who led the first air raid on Tokyo three years ago personally raised the flag over his newly established Eighth Airforce headquarters here and predicted his Superforts would be given by late next. and predicted his Superiorts would be striking at Japan by late next month. They will use six or seven Okinawa airdromes, augmenting the 20th Bomber Command B-29s operating from Marianas Islaid

Nippon will be plastered mightily from the air by 5,000 planes in one cay, he told newsmen, until their day, he told newsmen, until their industries and air force are wiped

out. "The actual tonnage dropped on

"The actual tonnage dropped on Japan will be about twice that which was dropped on Germany from England," he said.

Doolittle echoed comments of other air generals that Japan undoubtedly has a considerable nuber of planes but is saving them to repel the feared invasion. Germany did the same thing," he observed.

CONTINUED FROM FIRST PAGE called Labor's victory "the most astonishing and significant of the contury." There were many efforts to explain the upset, one of the most prominent being that Britons ware tired of wartime restrictions and eager for a change.

Attlee served until June 15 as deputy prime minister in Churchill's wartime coalition government. He said the victory "will enable us to implement the policy of the Socialist party."

"This is the first time in the history of this country that Labor has ever had a cleancut victory," he commented.

ROCKY MOUNTAIN SPOTTED FEVER CAN BE AVOIDED

Rocky Mountain spotted fever, or tick fever, as it is commonly known, is one disease which any person can almost certainly avoid by taking proper precautions, Dr. Wilson David of the Corsicana Chamber of Commerce Health Committe, said Thursday.

"Spotted fever is caused by the bite of an infected tick," Dr. David declared. "Ticks originally acquire the infection by feeding upon some infected animal. If an infected tick attaches itself to a person it way

attaches itself to a person it way within a few hours start feeding upon it's victim's blood, and introauce the infection into the person's lood stream.
Tall grass and bushes along an-

imal runs, streams and edges of wooded areas often may be tick

infested.

"For persons who enter tick areas there is the simple precaution of regularly—two or three times each day—examining all the clothing, the hair, and the entire body for the presence of ticks. If they are found, they should be removed with tweezers rather than with the fingers, and the hands should be washed immediately and thoroughly after holding ticks to avoid infection. If the head of the tick has been fastened into the skin, an irritant such as tincture of jodine irritant such as tincture of iodine should be applied to cause it to re-move its head. "About a thousand cases of tick

"About a thousand cases of tick fever occur each year in the United States, in all but a very few states, and mortality of unvaccinated cases is very high. The tick season extends from late February through August, or in some parts of the country, later. Persons regularly exposed to ticks should consult their doctors or health departments regarding inoculation with spotted fever vaccine at the beginning of each tick cine at the beginning of each tick season for partial and temporary immunity."

Peace Terms Remain Complete Surrender

WASHINGTON, July 28.—(A?)—Acting Secretary of State Grew declared today that the policy of this government toward ending the war with Japan remains unconditional surrender—regardless of the latest enemy peace-feelers.

Grew asked for comment on the enemy broadcast last night in which the Japanese in effect begged for more lenient terms of surrender.

der.

Through his press officer, Grew replied that he had no comment to make directly on the broadcast but that his July 10 statement reiterating the United States government's position still stands.

He declared in that statement:

"Japanese militarism must and will be crushed. The policy of this government has been, is and will continue to be unconditional surrender."

To this he added that such a policy does not mean "destruction or enslavement of the Japanese people."

The Servis Bull-Dozer with Hydraulic Control, is fast, efficient and so easy to use.

With the Whirlwind Terracer and the Servis Bull-Dozer, you can build and maintain your own terraces when the work should be done, at a great saving in cost ... and get your Government check

The Whirlwind Terracer actually "Throws" the earth into terrace ridge pulverizes and leaves the soil ready for seeding, and holds the proisture.

The Servis Bull-Dozer is especially suited for making fills before and after building terraces. It keeps your tractor on high ground when filling gullies . . . Hydraulic pump feature gives you finger-tip control to stop Mouldboard and Blade at any desired level.
